Subject: Apology and resignation

NOAA's National Weather Service is building a Weather-Ready Nation by providing better information for better decisions to save lives and livelihoods

The above statement is taken verbatim from the NOAA weather page. It directly contradicts NOAA directives in which forecasters were ordered not to contradict the President's provably false statements regarding a HURRICANE.

I expect a public apology followed by your immediate resignation. Please keep me informed of your decision.

**With absolutely no respect,
Daniel Jarvis**
